NEW CAST IRON SPINNING MACHINES.

The subscriber having completed his arrangements to the North so as to procure castings and machinery in any quantity is now ready to present the public with the above machines in a highly improved state with any degree of promptness and despatch.
He has now on hand several of the machines, which perform well, and he hesitates not to say that they will be acknowledged by the planters as superior to any thing of the kind which has hitherto been introduced in this country.
The castings will be readily conceived give additional strength, durability, and permanency to the machines, and remove the probability of their getting out of order from shrinking, swelling, or warping, as is sometimes the case with wood.—The subscriber has been engaged in the business at this place for nearly five years and in the course of that time although he has not been able to supply half the demand he has sold in this vicinity, machines to the amount of upwards of \$50,000—nearly all of which has given entire satisfaction. Hundreds of certificates might be given as testimonials of the utility and workmanship of his machines, but he deems it unnecessary as he relies entirely upon their performance, to do away with any prejudice which may exist in reference to them.
The above machines will spin from a coarse three hundred to a fine six, and are capable of pushing, of spinning two yards per hour, or 12 yards per day, with the same ease that the ordinary task can be performed on a wheel.
Machines will hereafter be delivered agreeably to order, at Columbus, Miss. Columbus, Ga. Macon, Ga. Wetumpka, Ala. and at other towns and places in this state and Georgia, best suited to the convenience of purchasers, at a small advance in the price, for delivery. An agent will be employed, who will remain at the above places in Georgia, to put the machines in operation and to give all the instruction concerning them which may be necessary, and the subscriber will attend generally, either in person or by proxy, to the starting of the machines, and if they do not perform agreeably to expectation, persons will be released from all responsibility in keeping or paying for them.
Orders by letter or otherwise, will be attended to with promptness.
Price of a machine 150 dollars.

Second sale of lots in the town of Philadelphia.
The second sale of Lots in this desirable place will commence on Tuesday 15th day of December next.
The December term of the Circuit Court, for Neshoba County commences its session one day previous to the sale.
Many of the choicest lots are yet for sale, and the same advantages allowed to the purchasers at the former sale, of getting building timbers from the adjoining lands, will also be allowed the purchasers at the ensuing sale.—Lots at the first sale, went off high, but many of them could now be sold at two hundred per cent. The purchasers intend improving immediately, and no doubt in a few months, there will be quite a village on the spot where but a short time ago, might be heard only the yell of the savage, or the howl of the wolf. Nature has done more for this place than almost any other. Its situation, is high, beautiful, and commanding, surrounded by a large country of the most fertile Cotton Lands, in the Choctaw Nation, it is near Pearl River, a beautiful stream entirely practicable for steamboat navigation, and having one or two of the best springs of freestone water, gushing out of the hill almost at its summit, that has ever yet been known in the Choctaw Country, yielding a sufficiency for machinery of any description within a few hundred yards of its source, and above all its healthiness, a case of fever having never been known near it even by the oldest settlers.
We say nothing of the advantages that might be derived from Rail Roads and other improvements which would be great no doubt, but we say on what nature alone has done for the place, and all who look at it impartially are struck with admiration, and compelled to admit that at no distant day, it will become a desirable inland town. We state as we have before, that it is our belief, that the County site for Neshoba County will be removed to Philadelphia, and that too in a short time. The general wish of the people of the County and the property of their county town imperiously demands it.
We will try and have something to go on, at the sale, and invite all who want a home, or a chance to make a fortune, to come and see us on that day.
Terms.—As at the last sale and made known before selling.

Likely, young, family Negroes—Georgia raised, FOR SALE.
Wishing to dispose of my plant- ing interests, I will sell one hundred likely young family raised negroes. They were raised by my father, near 'milledgeville, and are a select lot, from a large number belonging to his estate. They are negroes of good qualities, never having given any trouble, by running away, or by any other vicious habits. In the number are 40 very full grown, effective hands, and many girls and boys who are large enough to turn out to work another year—there are but four in the number less than the age of forty-five.
The same number of negroes of like description, and qualities are not easily had; besides there is a vast difference in price in purchasing negroes in Mississippi, and purchasing them in Georgia, exclusive of the uncertainty of getting negroes of good character out of droves, that have been bought up indiscriminately, and without reference to their former character and habits.
They will be for sale until the 30th of January. Terms, Cash. Any person who may wish to purchase them, especially a planter for his own use, would do well to call as early as convenient.

SALE OF LOTS IN THE TOWN OF Pensacola.
IN offering for sale this Town Site, the subscribers unhesitatingly say, it is one of the most beautiful bluffs on Pearl River. The site is situated in the county of Lenke, on the west side of Pearl River, four miles south west of the town of Carthage, the Seat of Justice for the aforesaid county, and six miles south of Haysville on the Robinson Road.
In describing Pensacola, the subscribers do not hesitate in saying that the river affords convenient navigation for Steamboats from 150 to 175 tons burthen up to this point, and the surrounding country is unsurpassed in the Choctaw nation for good water, healthfulness and fertility of soil. Indeed we have the opinion of the most experienced cotton planters that it will produce as much cotton per acre as the far famed Madison county lands.
As it is an ascertained fact, from the oldest and most intelligent settlers in the neighborhood of Pensacola, that its site is entirely above high water mark, and is at all seasons of the year accessible; and as it is also clear that it is the nearest and most convenient shipping point for all the middle counties of the Choctaw nation, there is therefore no doubt entertained, that Pensacola will be the place of depot for all the cotton raised in those counties; added to which, by means of the RAIL ROAD, which is now in progress from Vicksburg, on the Mississippi river, to Jackson, our Seat of Government, which is situated on Pearl river, only 55 miles below Pensacola; those shipping at Pensacola will have the advantage of sending their produce by a more direct route to New Orleans than by the present means of transportation, and at a cheaper rate; giving this point decided advantages over every other shipping point which can now be reached by those counties; for we have no doubt but that a trip will be made from Pensacola (by way of the rail road) to New Orleans and back in ten days.
The town will be laid off in handsome style, and will afford some beautiful Family Residences.
Terms of sale.—The lots in the town of Pensacola will be offered and sold to the highest bidder; the purchaser giving bond and approved security; Payable, one third on the first of March, 1837; the other two thirds in one and two years from date of sale; the subscribers giving bonds for titles in fee simple when the full amount of the purchase money shall be paid.
The subscribers will sell the remaining part of the tract on which the town is situated, with the unsold lots, (if there be any) at private sale, on the second day of the sales; and also some other lands they own lying near to the town, which are in part of soil and situation, equal to any lands in the Choctaw nation.
There will be two Saw Mills in successful operation in a short time; which will furnish lumber for those who may purchase lots, and wish to improve.
The sale will commence on Monday and Tuesday, the 5th and 6th days of December, 1836.
